

# WELCOME TO THE OUTBACK

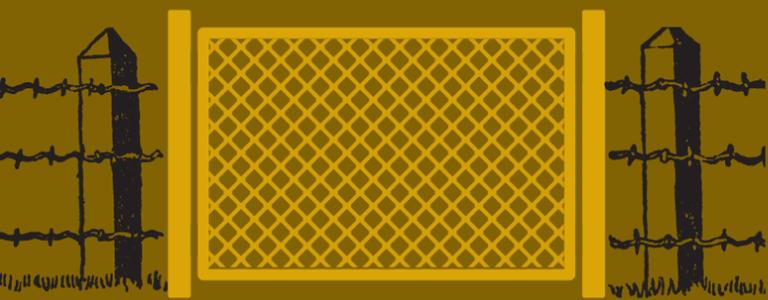

- BUT THERE ARE SOME THINGS  
YOU NEED TO KNOW -

Remote regional communities rely on your purchases to survive. It's even more important now as they continue to struggle during one of the worst droughts in history

If you plan on having open fires please bring your own firewood or buy from a local dealer. We need to preserve our local wild life habitats as well as our timber species

Respect property owners and their livelihoods by leaving gates as you find them. If planning to stay on a property please report to the homestead on arrival

Our environment is important to us. Please behave responsibly by taking all of your rubbish with you. Leave only your footprints

With thanks from
